

Fraction Operation Homework

Find the perimeter.

Perimeter _____

Perimeter _____

③ A recipe for one batch of brownies calls for $\frac{1}{8}$ teaspoon of vanilla extract. If Jonah wants to make three batches of brownies, what much vanilla extract will he need?

④ Usually Ella rides her bike $4\frac{4}{5}$ miles a day. Today she rode $\frac{1}{2}$ of her usual distance. How far did she ride?

⑤ Alma bought a container of peanuts. She gave $\frac{1}{4}$ to her sister, $\frac{1}{3}$ to a friend at school, $\frac{1}{6}$ to her teacher, and kept the rest for herself. How much did she keep?

⑥ Mike practiced piano $1\frac{1}{3}$ hours on Monday and $\frac{5}{6}$ hours on Tuesday. How much did he practice in all those two days?
